"I'm passionate about Generate's mission because our work ultimately protects the well-being of mountains, lakes, and forests. DAVID CLAMAGE

"I often think about how my generation, and those before, failed to recognize the intersection between Earth as an ecosystem, and Earth as a social system. Generate Capital has taken on bringing these two viewpoints under one vision, and the company's actions have a positive impact on people and the planet alike. I am proud of the integrity of Generate's mission and its broad reach in making a difference."
